# 2022

Q  
Q Play®

Qplay GmbH. was founded in Germany in 2016, followed by Oplay South Europe,S.L. in Spain and HK Showroom in HongKong. After 5 years of hardworking, we finally established a whole mature supply chain for children tricycles, balance bikes, scooters, mommy bags etc in China. We export more than 50 countries worldwide with annual volume of one million trikes and other ride on toys.

Our mission is to create products that are both fun and functional with an emphasis on durability, features, and on-trend design. Each of the products that we manufacture also takes your child's comfort and safety into consideration, to make a product that the whole family enjoys.

We never compromise on quality. We always set a higher standard than any official standard tested by approved labs, all of our products are certified/inspected by independent research institutes such as Intertek and SGS. Safety is always in a priority position of consideration during our creation and production.

We never stop our steps of innovation and creation on the way. All the products are original designed by our own team, we have won invention patents for some of them like RITO, Qplay is dedicated in maneuvering technology, in order to satisfy parents' very specific demands.

By providing advanced, elegant and in-trend products to millions of families each year, we had been winning a lot of awards in this industry.

Thank you for trusting our brand and our product. We will do better in every little aspect to feed back on your expectations.

# Rico Foldable Trike.

Rico is the first folding tricycle in QPlay range. One of the main advantages of its folding mechanism - you don't need to carry it when it is folded. When it's folded - you can either put it somewhere (for instance - in the trunk of your car) or you can just pull it behind yourself, like a trolley. This trike has several versions you can choose EVA or inflatable wheels, you can take a version with extra infant Footrest and with huge mommy bag in the rear part. And of course this model has an unusual design and lots of other small options that can make a baby happier and life of parents easier.
